

Odyssey is Chosen As A 2011 Nevada Highlighted School

The State Department of Education has recognized Odyssey Charter School as a 2011 Nevada Highlighted School. Six schools were chosen to speak about their programs at a State Department Conference in early April. Dr. Keith Rheault, the Department of Education Superintendent, presented the award to Odyssey in recognition of our efforts towards student achievement and school improvement. We are deeply honored and will continue to proudly serve our community of students and families.
